

Bio2401 Laboratory
Lab 05 – 5/26/15

General Learning Objectives:

By the end of this class you should understand:

- The structure of the human integument
- The composition of the different tissue layers of the integument

Key Laboratory Skills:

- Identify the structure and function of integumentary layers
- Locate different tissue layers on a microscope or still image

Laboratory Procedure:

- Exercise 6: Integumentary System
 - Exercise 6-1: Skin anatomy
 - Exercise 6-2: Skin histology
- Individual Credit: Vocabulary of the integument
- Group Credit: Identification of all features on integument model
